1. The base price of a photo op includes two adults in the same photo. Families may have two adults and their children under 12.
2. To receive your digital download, you must redeem your digital ticket after you pick up your print.
3. Glasses will often glare and make it very difficult for the photographers to see if you blinked. If you do not mind removing them, we suggest you do.
4. Space in the photo op line queue is limited, therefore we must insist that only those who are going to be in the photo may wait in the lines. In the case of small children who are to be in the photo, a parent or guardian may wait with them.
5. No personal photos or videos may be taken in the photo op room. Please be sure to have any cameras, cell phones, video cameras or other recording devices put away when entering the photo op room.
6. If you have purchased your ticket on-line, you must be sure to redeem your printed ticket for a photo op card before entering the photo op room. Printed tickets will not be accepted by the attendant in the photo op room.
7. Typical wait time for prints is about thirty minutes but may increase during heavy volume photo ops. All prints will be ready same day, even for late photo ops.
8. Please try to limit the items you bring into the photo op room as there is little space to place them.
9. Do not be late for your photo op. We cannot bring a guest or group back once they have left the photo op room. No refunds will be given if you are late for your photo op, you may exchange the ticket for another op.
10. Lines for photo ops are made about 30 minutes before the op starts. Please do not try to line up prior to this or create your own lines. Fan created lines will not be honored when photo op lines are set up by the photo op staff.
